New San Mateo Grade Separation Project Breaks Ground *Funded in Part by High-Speed Rail*

SAN MATEO, Calif. – The California High-Speed Rail Authority (Authority) is celebrating the beginning of construction on the 25th Avenue Grade Separation Project in San Mateo. The Authority, in partnership with the City of San Mateo and the Peninsula Corridor Joint Powers Board, is making this life-saving investment by contributing funding to this important safety improvement project. This grade separation will significantly reduce accidents and congestion at a dangerous intersection, long before high-speed rail service on the blended corridor reaches the Bay Area. See how this project will protect the community and how a unique partnership made it all possible.

For more information visit the [San Francisco to San Jose Project Section](#) page on HSR.ca.gov.
