

# 2019 Sustainability Report Highlights

"We use sustainability as an organizing framework. Considering environmental, social, and financial impacts for both current and future generations is an organizational standard reflecting California's values. Sustainability influences all aspects of our organization and every element of the project life cycle." - **Brian Kelly, Chief Executive Officer**

## MINIMIZING CONSTRUCTION GHG EMISSIONS

### Reducing Air Pollution

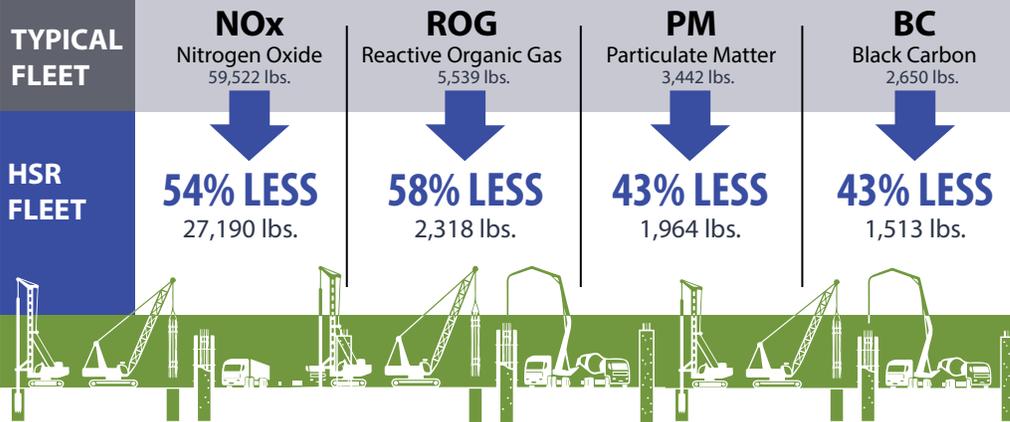

**Tier 4 Equipment:**  
Reduces Nitrogen Oxide,  
Carbon Monoxide and  
Particulate Matter  
Avoids Black Carbon

**On- and Off-Road Vehicles:**  
Emissions Produced

**Actions That Offset  
Air Quality Emissions**

of all construction  
waste recycled to date

**More than  
1,200 trees  
planted in  
the Central  
Valley**

### Material Quantity (in tons)

- 10,301 Recycled/Reused Concrete
  - 6,044 Recycled Organics
  - 691 Recycled/Reused Asphalt
  - 2,936 Mixed Recycling
  - 716 Recycled Mixed Metals
  - 2,948 Mixed Landfilled
  - 714 Recycled Wood
- 24,350 Total Tons Handled**

**21,400 Tons Recycled**

## COMMUNITY OUTREACH

**377**  
Open Houses and  
Community  
Meetings

**15,000+**  
Attendees

**238**  
Events in  
Disadvantaged  
Communities

**7,350+**  
Attendees at  
Disadvantaged  
Community Events
