

APPENDIX 3.14-D: WILLIAMSON ACT AND FARMLAND SECURITY ZONE COMPLIANCE DATA

Table 1 lists the total acres and number of parcels of protected farmland (i.e., under Williamson Act and Farmland Security Zone [FSZ]) contracts directly affected by the Central Valley Wye alternatives in Merced and Madera Counties¹. Tables 2 through 5 list the individual parcels under Williamson Act and FSZ contracts, including those currently under contract nonrenewal², potentially affected by each Central Valley Wye alternative. Merced County does not participate in the FSZ program. The tables include existing parcel size and the remainder parcel size after construction of the Central Valley Wye alternatives. Parcels that no longer meet the minimum Williamson Act and FSZ contract acreage within Merced and Madera Counties may no longer qualify for Williamson Act and FSZ contract.

Table 6 presents the estimated total acres and number of remnant parcels of protected farmland that would be smaller than each county's threshold for protected farmland contracts under each alternative. Agricultural land acreage protected under the Williamson Act that potentially could fall under county thresholds ranges from 94 acres for the Avenue 21 to Road 13 Wye Alternative to 245 acres for the SR 152 (North) to Road 13 Wye Alternative. Farmland protected under FSZ contracts that potentially could fall under county thresholds ranges from 136 acres under the Avenue 21 to Road 13 Wye Alternative to 184 acres under the SR 152 (North) to Road 19 Wye Alternative.

¹ There would be no permanent impacts from implementation of network interconnections in Stanislaus and Fresno Counties; therefore, no further discussion is required.

² "Nonrenewal" refers to the method of terminating a Williamson Act or FSZ contract by filing a notice of nonrenewal. The contract is terminated 10 years from the time of notice of nonrenewal. Nonrenewal can be initiated by the landowner or the local government.
