

## 16 INTRODUCTION

This introduction explains the organization of Volume 4, Responses to Comments on Draft Environmental Impact Report/Environmental Impact Statement and Revised/Supplemental Draft Environmental Impact Report/Environmental Impact Statement, of the Final EIR/EIS. Volume 4 contains public comments received during the circulation periods for the *San Jose to Merced Project Section: Draft Environmental Impact Report/Environmental Impact Statement* (Draft EIR/EIS) and the *San Jose to Merced Project Section: Revised Draft Environmental Impact Report/Supplemental Draft Environmental Impact Statement, Biological Resources Analysis* (Revised/Supplemental Draft EIR/EIS). Pursuant to the California Environmental Quality Act (CEQA) and the National Environmental Policy Act (NEPA), the California High-Speed Rail Authority (Authority), as the lead agency, provided a 45-day comment period for the Draft EIR/EIS from April 24 to June 8, 2020. On May 15, 2020, the Authority extended the comment period to end on June 23, 2020, making it a full 60-day comment period. Pursuant to the CEQA and the NEPA, the Authority provided a minimum 45-day comment period for the Revised/Supplemental Draft EIR/EIS from April 23 to June 9, 2021.

### 16.1 Standard Responses to Frequently Raised Comments

During the public review period for the Draft EIR/EIS, the Authority received a total of 746 comment submittals through a combination of letters, emails, and oral comments (court reporter) provided at the public hearing. These 746 submissions yielded a total of 4,887 discrete comments on the environmental documents and on the proposed project generally. There were approximately 38 submissions received by the Authority following the close of the comment period. While these submissions were late, they were still considered and responded to in Volume 4 of this Final EIR/EIS. During the public review period for the Revised/Supplemental Draft EIR/EIS, the Authority received a total of 16 comment submittals through a combination of letters and emails. These 16 submissions yielded a total of 226 discrete comments on the environmental documents and on the proposed project generally.

The Authority has prepared a chapter of standard responses to address the most frequently raised issues. The standard responses provide a comprehensive response to an issue so that multiple aspects of the issue are addressed in an organized manner in one location. This reduces repetition of responses. When an individual comment raises an issue discussed in a standard response, the response to the individual comment includes a cross-reference to the appropriate standard response. In Volume 4, the standard responses are provided in Chapter 17, Standard Responses. A Spanish translation is provided in Chapter 18, Respuestas Estándar; a Mandarin translation is provided in Chapter 19, 標準答覆; and a Vietnamese translation is provided in Chapter 20, Phản Hồi Tiêu Chuẩn.

### 16.2 Individual Responses to Written and Verbal Comments

Following the standard responses, the Authority provides responses to individual written and verbal comments on the Draft EIR/EIS (Part 1 of each chapter) and the Revised/Supplemental Draft EIR/EIS (Part 2 of each chapter as applicable). The individual letters and comments included and addressed in Volume 4 are organized and numbered as follows:

- Chapter 21, Federal Agency Comments
- Chapter 22, State Agency Comments
- Chapter 23, Elected Official Comments
- Chapter 24, Local Agency Comments
- Chapter 25, Tribe Comments
- Chapter 26, Business and Organization Comments
- Chapter 27, Individual Comments

Each written submission and oral presentation can be found under the appropriate category by name or, if representing an organization, the name of their organization. If a commenter gave oral or written testimony at the public hearing, that person will find the comments in the appropriate

chapter (i.e., comments by individuals in Chapter 27, comments by businesses and organizations in Chapter 26, and so forth).

Each submission the Authority received was assigned a number starting with “SJM”, which corresponds to this document’s title of the San Jose to Merced Project Section EIR/EIS. Individual comments within each submission were assigned a secondary number.

Each comment letter and public hearing transcript has brackets in the left-hand margin with identification numbers for each comment. Some letters or oral statements have been treated as a single comment, whereas in other submissions, multiple comments have been identified, which have been numbered and responded to individually. Responses to the comment or comments are located at the end of each letter or transcript. Each response is labeled with the submission identifier and comment number that refers back to that particular bracketed comment.

A number of written comment submissions in Volume 4 included lengthy attachments to the comment letters or web links to supporting materials. In preparing the Final EIR/EIS and responses to comments, every attachment provided with comment submissions or identified by a web link was reviewed and evaluated. In those cases where attachments included additional comments on the EIR/EIS, the comments were bracketed and responded to. In those cases where attachments or web links contained information or studies in support of the written comment submission, the material was considered in developing the response.

The table of contents for Volume 4, provided in the following section, includes a listing of each commenter, submission number, and the page number where it can be found.

### 16.3 Contents by Order of Appearance in Document

**Table 16-1 Standard Responses (English)**

| Chapter 17, Standard Responses (English) |  |
|--|--|
| SJM-Response-GEN-1                       | Opposition and Comments on the Merits of the Project   |
| SJM-Response-GEN-2                       | Consideration of Diridon Integrated Station Concept and the Google Development at the San Jose Diridon Station |
| SJM-Response-GEN-3                       | Consideration of Caltrain Business Plan, Including the 2040 Caltrain Service Vision                            |
| SJM-Response-ALT-1                       | Alternatives Selection and Evaluation Process  |
| SJM-Response-ALT-2                       | Project-Specific Alternatives Considered   |
| SJM-Response-ALT-3                       | Rejection of Alternative 3   |
| SJM-Response-GS-1                        | Requests for Grade Separations   |
| SJM-Response-TR-1                        | Site-Specific Mitigation for Traffic Impacts   |
| SJM-Response-TR-2                        | Construction Traffic and Parking Management Details  |
| SJM-Response-TR-3                        | Gate-Down Time Calculation Details   |
