CEO REPORT

Agenda

• Program Update
• Berkeley Institute of Governmental Studies Poll
• Update on Future Board Meetings
CEO REPORT
Program Update – CP 1

• Utility Work
  » **Justification:** Increase the “provisional sums account” for necessary utility work in Construction Package 1 (CP 1). This change is estimated to complete all known utility work on CP 1. The change is needed to make sure the work is completed.
  » **Cost:** $31,000,000

• McKinley Avenue
  » **Justification:** McKinley Avenue modifications requested by City of Fresno and Caltrans between 2015 and 2018 to align with new Northbound 99 onramp alignment and allow for utility relocation. These relocations are a major component of the HSR footprint in the area of McKinley Avenue, and the executed settlement allows the work to be completed.
  » **Cost:** $78,608,851.93
CEO REPORT
Program Update - CP 2/3

• **Intrusion Protection Barrier (IPB)**
  » **Justification:** Resolves 1 of 4 major contract disputes with Dragados/Flat Iron Joint Venture and allows for work to construct an IPB adjacent to track owned and operated by BNSF Railway. This action avoids further delays and resolves the IPB dispute with the contractor.
  » **Cost:** $144,949,345

• **Extend the PCM Contract until 12/31/22**
  » **Justification:** A budget amendment and contract time extension to cover Project and Construction Management Services (PCM) scope of work from April 30, 2022, to December 31, 2022.
  » **Cost:** $27,878,266.10
CEO REPORT
Program Update - CP 4

• Time Impact Resolution

  » Justification: This time impact compensates California Rail Builders (CP 4 contractor) for delay claims associated with past right-of-way acquisition issues and the lack of an agreement in place with Semitropic Water District. Agreement is now in place and project is now on set schedule toward completion.

  » Cost: $21,005,179
