Footnotes

- Prop 1A bond sales are conducted twice a year by the State Treasurer's Office (STO) in the spring and fall.
- Beginning balance includes a \$450K Advance to Office Revolving Fund (ORF). Advance to ORF represents cash available for disbursement to facilitate efficient reimbursement of invoices. Upon replenishment of the full ORF balance, \$450K becomes accessible to Prop 1A Bond Fund appropriations for use.
- The Authority received notification from the Department of Finance and State Treasurer's Office that accumulated interest earnings associated with Prop 1A commercial paper and bond proceeds are now available to use for the project. This additional cash will be applied to the Authority's existing \$9B Prop 1A authorization and will not increase the \$9B cap.
- The Authority has \$1.5B available through commercial paper or bond sale, which was authorized in the Fall 2024 bond survey. The proceeds will not be reflected until the Authority submits a request for funds to STO and issuance is completed.

Footnotes

- 1 This fund receives revenues from leases/rents collected on property acquired that is not yet delivered to the design-builders for construction. The Budget Act of 2024 appropriated \$2.5M to be used for the development, improvement, and maintenance of the high-speed rail system and associated properties and also appropriated \$6M to be used for the Central Valley Segment acquisition.
- 2 Fluctuations in monthly expenditures are primarily due to timing of invoice submission by vendors and a Pro-Rata cost, which is a state administrative assessment determined by the Department of Finance, that is charged three times a year.
