¹ Small business utilization is calculated by the amount paid to a certified small business divided by the total contract value or paid to date amount. Utilization data is inclusive of Small Businesses (SB), Disadvantaged Business Enterprises (DBE), Disabled Veteran Business Enterprises (DVBE) and Microbusinesses (MB) on Active Awarded Contracts with SB goal commitments.

² Construction packages are those who consist of CBAs and unionized workers

³ Prime SB goals are based on total contract value unless noted otherwise

⁴ Prime approved to report bimonthly.

⁵ Prime is on reporting hiatus.

This report is based on best available data. Utilization Values are subject to change should past invoices be revised or if there are changes in the small business crediting eligibility of individual subconsultants/subcontractors.

¹ Small business utilization is calculated by the amount paid to a certified small business divided by the total contract value or paid to date amount. Utilization data is inclusive of Small Businesses (SB), Disadvantaged Business Enterprises (DBE), Disabled Veteran Business Enterprises (DVBE) and Microbusinesses (MB) on Active Awarded Contracts with SB goal commitments.

² Construction packages are those who consist of CBAs and unionized workers

³ Prime SB goals are based on total contract value unless noted otherwise

⁴ Prime approved to report bimonthly.

⁵ Prime is on reporting hiatus.

This report is based on best available data. Utilization Values are subject to change should past invoices be revised or if there are changes in the small business crediting eligibility of individual subconsultants/subcontractors.
