

INDUSTRY FORUM: Advancing California High-Speed Rail

CONNECTING CALIFORNIA

January 30-31, 2025
May Lee Complex
651 Bannon St., Sacramento, CA 95811

The California High-Speed Rail Authority (Authority) is hosting a two-day in-person forum to share the latest milestones achieved, the vision of the next phase of the program and conduct a series of discussions on technical topics related to the advancement of high-speed rail in California. The event will be an opportunity for industry experts to engage and network with the Authority and each other as we discuss topics that will streamline delivery, reduce cost, and increase project efficiency of this historic project.

As outlined in the agenda below, the Authority will offer a series of one-on-one meetings related to technical topics hosted by Authority subject matter experts. To see a full range of these topics please check out our [Industry Forum Webpage](#). Note that for some firms it may be appropriate to request a meeting in more than one topic area. Each one-on-one meeting will be 45 minutes in length.

Availability for the one-on-one meetings are limited and not all industry participants who request a meeting may be granted one. Participation in one-on-one meetings is completely voluntary. Non-participation in the industry event and/or one-on-one meetings will in no way affect future procurement outcomes.

Day 1

Thursday, January 30

Morning

8:00 - 9:00 – Registration & Networking

9:00 - 10:30 – Opening Presentation

10:30 - 12:15 – 1-on-1 Meeting Sessions
