APPENDIX 2-B: RAILROAD CROSSINGS

This Appendix 2-B provides information about railroad and roadway crossings within the footprint of the F-B LGA. Provided below are tables containing acronyms and term definitions used in this Appendix that are shown in Table 2-B-1, Table 2-B-2, and Table 2-B-3. Table 2-B-1 describes the area where the F-B LGA would cross existing railroads. Table 2-B-2 provides the proposed public roadway crossings associated with the F-B LGA. Table 2-B-3 provides railroad crossings within the F-B LGA footprint. Information regarding railroad and roadway crossings for the May 2014 Project can be found in the Fresno to Bakersfield Section Final EIR/EIS Appendix 2-B (pages 2-B-1 through 2-B-30).

2-B-1 Definitions

Term	Description
F-B LGA	Locally Generated Alternative
BNSF	BNSF Railway
SJVR	San Joaquin Valley Railroad
UPRR	Union Pacific Railroad

Existing RRX Grade	F-B LGA	Road Realign	RRX Change	Prop. RRX Grade
G = Grade Crossing	HSR At	None	No Change	RR At
A = Road Above Track	HSR Below	Minor	Close	RR Below
B = Road Below Track	HSR Above	Major	Changes	RR Above

All proposed crossings include the following:

F-B LGA Alignment	Proposed grade of F-B LGA track alignment/corridor
HSR At	HSR track on the surface (on embankment, at-grade, ground level)
HSR Above	HSR track on the surface (above grade, retained fill, rail bridge, aerial structure, etc.)
Road Alignment	Proposed roadway realignment or construction in the vicinity of the at-grade crossing
None	No significant roadway realignment or construction
Minor	Minor reconstruction of local roadways
Major	Major reconstruction of local roadways

Where the F-B LGA alignment is within 1,000 feet of an existing highway-railroad crossing the following information is included:

Existing RRX Grade	Existing grade of highway-railroad crossing
G	Currently roadway crosses the railroad at-grade.
A	Currently roadway is above the railroad.
B	Currently roadway is below the railroad.
RRX Change	Proposed physical change to the highway-railroad crossing
No Change	Railroad crossing and immediate vicinity will NOT be physically affected
Close	Railroad crossing will be eliminated
Changes	Railroad crossing will remain with physical modification, including the addition of RR or HSR track at an existing railroad grade separation
RRX Grade	Proposed grade of the highway-railroad crossing
RRX At	Railroad tracks at same level as roadway
RRX Below	Railroad tracks below roadway
RRX Above	Railroad tracks above roadway
